

**Designed To Save Money**  
*Our patented design can help you reduce waste and improve the bottom line*

# Peg Your $C_{P_K}$ To The Max

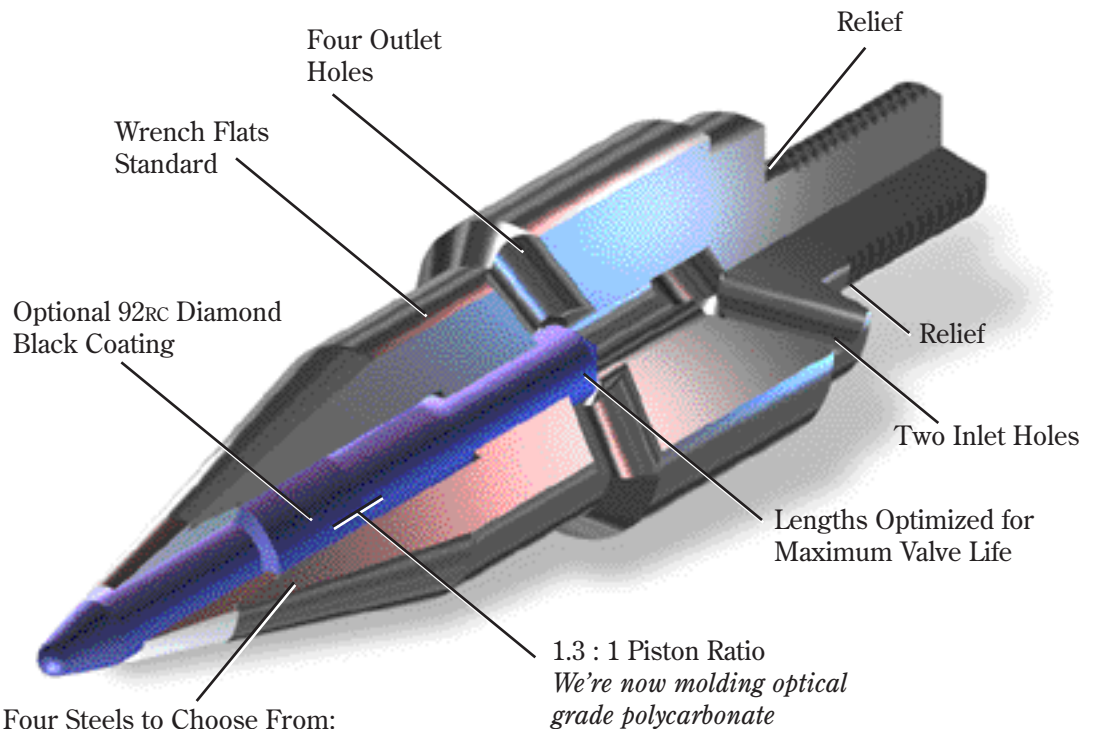

**It's easy with the Repeater™ Valve**

*No short shots, no flash, less waste, more profit.*

The Repeater™ Valve consistently performs well above the competition. If you want to know what it's like to boost your CPK 5 or 6 times, order a Repeater™ Valve today.

The Repeater Valve gives you consistent quality, time after time: no short shots, no flash, no flyers at all—less scrap, less regrinding, less wasted time!

Four Steels to Choose From:

- Nitrided H13—*standard applications*
- 420 Stainless—*corrosive environments*
- CPM-9V—*abrasive environments*
- CPM-420V—*corrosive/abrasive environments*
